

## PRICE TO BOOK VALUE LOWER THAN 1 AS ON DEC 4, 2013

This data contains those companies whose share price in the latest available date is lower than its Book Value; a book value reflects the accounting value of a firm. It has two main uses:

- (A) It is the total value of the company's assets that shareholders would theoretically receive if a company were liquidated &
- (B) By being compared to the company's market value, the book value can indicate whether a stock is under or overpriced.

The results of the query have been taken from consolidated results of companies & are filtered to remove small and illiquid stocks. The filter leaves only those companies that have a market capitalization of Rs.500 crores in the last 30 days and the traded at least in good quantity in last 365 traded days which refers as liquidity in the share.
