Market Commentary

Indian equity markets closed with significant gains in Friday's trade. The sentiments were on optimistic note after US Federal Reserve stated that it would take a patient approach in deciding when to raise interest rates, quelling fears of sudden outflows from emerging markets' assets. The sentiments also got support after the Cabinet approved the Constitution Amendment Bill on Goods and Services Tax (GST), clearing the way for its introduction in ongoing session of Parliament to bring about long-pending indirect tax reforms. Traders were seen piling positions in Consumer Durables, Infra and Power sector stocks. For today's trade Nifty likely to trade in the range between 8245 -8265 in the upper side and 8190 – 8160 in the lower side.
