NIFTY CHART

MARKET COMMENTARY

Boisterous benchmarks once again showcased an enthusiastic performance, by rallying over one and a half percentage points on Monday, as investors snapped up risky assets on optimism that Greece and its international creditors will strike a last-minute deal that will see Athens avert default. Sentiments remained up-beat since start as key bourses opened with huge gap on up-side and there appeared not even an iota of profit booking in the session as the benchmarks managed to fervently gain from strength to strength, as investors continued their hunt for fundamentally strong stocks. Frontline indices not only ended near intraday highs but also extended their rally for seventh straight session, settling comfortably above their crucial 8,350 (Nifty) and 27,700 (Sensex) bastions as investors took to hefty across the board buying. For today's trade Nifty likely to trade in the range between 8370 – 8385 in the upper side and 8320 – 8300 in the lower side.
