NIFTY CHART

MARKET COMMENTARY

Benchmarks ended the first day of new F&O series on weak note on Friday as Greece has again failed to reach an agreement with its creditors and stumbled towards a default. Markets traded in red terrain throughout the session despite making couple of futile attempts to enter into green terrain and ended with a cut of around quarter a percent. Sentiments remained dampened after the central bank's stress test surprisingly showed private banks are likely to see a significant jump in bad loans. For today's trade Nifty likely to trade in the range between 8420 – 8450 in the upper side and 8340 - 8310 in the lower side.
