NIFTY CHART

MARKET COMMENTARY

Indian equity markets continued their lackadaisical trade closed with significant losses in Monday's trade taking cues from global counterparts. Investors have started eyeing Reserve Bank of India's (RBI's) bi-monthly policy review which is scheduled today. The poll last week showed that the street expects RBI to cut its key repo rate to a four-year low to help support the domestic economy at a time when consumer inflation is at a record low. Traders were seen piling position in Realty, Consumer Durables and Bankex stocks, while selling was witnessed in Metal, IT and TECK sector stocks. For today's trade Nifty likely to trade in the range between 7820 – 7850 in the upper side and 7770 – 7750 in the lower side.
