NIFTY CHART

MARKET COMMENTARY

Indian equity markets continued their weak closed with significant losses in Friday's trade. The sentiments were on pessimistic note from morning trade tracking muted trends seen in other Asian markets as commodity slump dragged the markets lower. The government data released yesterday showed annual industrial output grew at a slower-than-expected pace of 3.6 percent in September, dampened mainly by a slower of in the mining sector, too added some selling pressure on the street. Investors paid no heed towards the International Monetary Fund (IMF) which said that India's growth will benefit from recent policy reforms, a consequent pickup in investment, and lower commodity prices. Traders were seen piling position in Metal and Consumer Durables stocks, while selling was witnessed in Capital Goods, IT and TECK sector stocks. For today's trade Nifty likely to trade in the range between 7780 - 7810 in the upper side and 7740 – 7720 in the lower side.
