NIFTY CHART

MARKET COMMENTARY

Indian markets lost their way after a good opening on Monday, making a subdued start of the new week and declining for the fourth straight session. Traders who were initially encouraged by the good going in the global markets and with the committee headed by Arvind Subramanian on goods and services tax (GST) rates coming up with an amicable solution to the ongoing confrontation of the government and the Opposition, suggesting 17-18 percent GST rate and dropping of the one per cent additional tax on interstate sales. For today's trade Nifty likely to trade in the range between 7795 – 7805 in the upper side and 7795 – 7805 in the lower side.

NEWS & RUMOURS:

- Gold (Spot Dollar) major support \$1059/\$1035 & Resistance \$1119/\$1141.
- > Crude oil range->\$34 to \$44.
 - ➤ Rout in Crude Sends U.S. Stocks Lower as Dollar Strengthens: The worsening rout in crude oil sapped momentum from equity markets, as energy-related shares tumbled with currencies of commodity-producing nations.
 - China's steel giants lost \$11 billion in first 10 months of 2015: - Chinese steelmakers, determined to keep their world's leadership in the sector, have been boosting sales at the expense of profits. From January to October this year, they have churned out a combined \$11 billion (Rmb72bn), or more than double the profits reaped in 2014.
 - Dollar remains higher in quiet trade, Fed in focus: - The dollar remained broadly higher against the other major currencies in quiet trade on Monday, as Friday's strong U.S. jobs data continued to fuel expectations for a December rate hike by the Federal Reserve, supporting demand for the greenback.
 - Oil at lowest in almost seven years on OPEC inaction, strong dollar: - Oil prices fell to their lowest in nearly seven years on Monday after OPEC's meeting ended in disagreement over production cuts and without a reference to its output ceiling, while a stronger dollar made it more expensive to hold crude positions.
 - Natural gas sinks to 2-week lows on weak heating demand signals: - U.S. natural gas prices started the week off with heavy losses on Monday, falling to a two-week low as unusually mild December weather weighed on the fuel.
 - Gold falls from 3-week high as dollar strengthens: - Gold prices fell from the previous session's three-week high on Monday, as the U.S. dollar recovered from last week's losses.
