### **NIFTY CHART**

### **MARKET COMMENTARY**

Indian equity markets that traded on a firm note for most part of the day suffered selling pressure at latter part of the day as investors' opted booking profit in select blue chip counters a day ahead of the discussion on GST Bill. The profit booking took place as investor sentiment turned negative after European markets hit a two-week low following poor results from some firms. Earlier, the market made a firm start as the stage was set for the introduction and likely passage of the constitutional amendment bill in the RajyaSabha to enable the roll-out of the Goods and Services Tax (GST). The government circulated to the MPs the amendments it has proposed in the constitution amendment bill to enable implementation of the tax. For today's trade Nifty likely to trade in the range between 8635 – 8655 in the upper side and 8595 – 8565 in the lower side.
