NIFTY CHART

MARKET COMMENTARY

Indian equity benchmarks traded on lackluster note whereby key indices witnessed high intraday volatility throughout the day and ended in red. The street expects that one should brace for volatility as crucial global events are scheduled over the next two weeks. The benchmarks made a cautious start in early deals as traders remained on sidelines. The rupee strengthened against the US dollar on increased selling of American currency by exporters and banks. For today's trade Nifty likely to trade in the range between 8645 – 8655 in the upper side and 8595 – 8575 in the lower side.
