

TURNAROUND COMPANIES

This data provides those companies that registered a net profit in the latest quarter but, had recorded a loss in the immediately preceding quarter. The data has been taken on the consolidated results of the companies and where such consolidated results were not available, standalone results have been considered.

The results of the data are filtered to remove small and illiquid stocks. The filter leaves only those companies that have a market capitalization of Rs.100 crores in the last 365 days, were traded for more than 80 per cent of the last 365 traded days and have a liquidity of more than 10 per cent. PAT refers to the profit after tax.
