NIFTY CHART

MARKET COMMENTARY

Indian equity benchmarks traded on a choppy note and ended the session in red, weighed by Metal, Oil & Gas and PSU stocks. Index heavyweight Reliance Industries dragged Nifty and Sensex below 8,400 and 27,300 respectively. The market is expected to move within a range in the result season ahead of the budget as more companies gear up to report earnings. The government will unveil budget on February 1, 2017, and investors hope for incentives to support an economy hit by cash shortages after a ban on higher-value banknotes. After a positive opening in early deals, markets soon drifted below neutral line following the International Monetary Fund (IMF) report, which so far had maintained that India is a bright spot against the gloomy global economic outlook, too has cut India's economic growth estimate for 2016-17 to 6.6% from its earlier projection of 7.6%, due to the impact of the government's move of demonetization of high value currency notes in early November. For today's trade Nifty likely to tradein the range between 8415 – 8435 in the upper side and 8385 – 8365 in the lower side.
